CHANGE NO. 9
DoD 4000.25 -1-M

DLMSO
17 JAN 1996

MILITARY STANDARD REQUISITIONING **AND** ISSUE PROCEDURES

I. Enclosed changes and/or modifications to DoD 4000. 25-1-M, Military Standard Requisitioning and Issue Procedures (MILSTRIP) , 1 May 1987, which constitute Change No. 9, is published by direction of the Deputy Under Secretary of Defense (Logistics) under the authority of DoD Directive 4140.1, Materiel Management Policy. The provisions of this change were developed by agreement between the Military Departments, National Security Agency, Defense Logistics Agency, and the U.S. Transportation Command in coordination with the DoD MILSTRIP System Administrator. Revised text is identified by bold print.

II. This change includes the following:

- A. IC 93-3: Clarified procedures in chapter 6 for shipment of unclassified FMS materiel and added country codes to Appendix B20.
- B. IC 94-1: Added new and/or revised country codes in Appendix B20.
- c. IC 94-3: Added new country codes to Appendix B20.
- D. A revision of figure 3-2, UMMIPS Supply Source Processing Standards, to comply with the standards published in DoD 4140.1-R.

III. This change also includes the following because of errors in the publishing of Formal Change 8:

- A., Adds acronyms LRO, MPS, MPSR, PWR, and TAV.
- B. Adds definitions for "Reporting Activity" and "Lateral Redistribution Order".
- c. Revises Chapter 1 to indicate forms and publications assigned NSNS may be requisitioned using these procedures.

D.. Revises Chapter 5 to reference use of DD Form 1348-1A in lieu of DD Form 1348-1.

E. Reinserts procedures in Chapter 9 applicable to processing of MRP transactions when the Source of Supply has been changed.

F. Removes status codes CT, DC, and DD as they only apply to AMCL 22 which has not been implemented.

G. Corrects the title and clarifies entry requirements for Appendix C11.

H. Corrects and clarifies entry requirements for Appendix C17.

I. Revises Appendix C36.

IV. Remove old pages listed below and insert new/revised pages as follows:

DEFINITIONS AND TERMS

ADVICE CODE. A coding structure for the purpose of transmitting instructions considered by the creators of requisitions to be essential to the desired supply action. Insertion of advice codes is at the discretion of the initial document creator.

CONSIGNEE. The recipient (unit, depot, or person) to whom cargo is addressed or consigned for final delivery. (Activity that is receiving the product.)

CONSIGNOR. The person or activity that is the supplier or shipper of a product.

COUNTRY CODE. A code used to identify the country, international organization, or account which is (1) the recipient of materiel or services sold, leased, loaned, transferred, exchanged, or furnished under FMS or (2) the recipient of materiel or services furnished under MAP Grant Aid.

COUNTRY REPRESENTATIVE/FREIGHT FORWARDER CODE. A code to identify the CR and/or FF authorized to receive documentation and/or shipment for FMS transactions.

DEPARTMENT OF DEFENSE ACTIVITY ADDRESS CODE. A distinctive code assigned to identify specific units, activities, and/or organizations. The first position indicates the S/A or other Government element of ownership or sponsorship. The remaining five positions are assigned under established products by the Service point of the participating S/A.

DISPOSAL AUTHORITY CODE. A code entered on disposal related documentation to indicate that the item(s) being transferred to the DRMO is authorized to be transferred to disposal because of instruction of the IMM/ICP relayed through the MRP or other proper authority.

DISTRIBUTION CODE. A code that indicates which activity will receive 100 percent supply status as well as other management data.

DISTRIBUTION SYSTEM. That complex of facilities, installations, methods, patterns, and procedures designed to receive, store, maintain, distribute, and control the flow of materiel between the point of receipt into a Military supply system and the point of issue to a post, camp, station, base, or equivalent.

DOCUMENT IDENTIFIER CODE. A means of identifying a given product (i.e., requisition, referral action, status document, followup, cancellation) to the system to which it pertains and further identifies such data as to its intended purpose and usage and the operations dictated.

DOCUMENT NUMBER. A unique reference number assigned to a requisition or a release/receipt document in order to identify the transaction throughout the logistics system and for the life of the transaction until its retirement is authorized in official audit reports. The first six positions are the DoDAAC of the reporting activity; the next four positions are the year and three position numerical day of the year; the next position is the utilization code; and the last three positions are the activity serial number.

FOLLOWUP. Inquiry originated by an authorized source requesting the status of a previously submitted document.

FOREIGN MILITARY SALES. The transfer of materiel, supplies, equipment, services, or any other support for cash or credit by a DoD Component to a foreign government or international organization as authorized by the FMS Act of 1968 (reference (b)). FMS includes CLSSAs.

FOREIGN MILITARY SALES CASE DESIGNATOR. A unique designator within a single country assigned by the implementing Service to each FMS case, consisting of a three position alphanumeric code to identify a specific offer to a country. The first position will always be alphabetic and the second and third positions may be alphabetic or numeric. This designator stays with and identifies the sale or offer of a sale.

FOREIGN MILITARY SALES COUNTRY REPRESENTATIVE. The FMS CR is the designated country official (i.e., Consulate, Attache, Director of Movements, etc.) duly authorized to control FMS case transactions.

FREIGHT FORWARDER. Any representative designated by an FMS country to accomplish/control shipments for FMS materiel.

GOVERNMENT FURNISHED MATERIEL (GFM). Materiel in the possession of, or acquired by, the Government and later delivered or otherwise made available to a contractor. GFM is property that may be incorporated into or attached to a deliverable end' item or that may be consumed or expended in performing a contract. GFM includes assemblies, components, parts, raw and processed materials, and small tools and supplies that may be consumed in normal use in performing a contract.

INTERNATIONAL LOGISTICS CONTROL OFFICE. The central U.S. Service control point in CONUS that monitors requisitions and related transactions for the FMS and Grant Aid.

LATERAL REDISTRIBUTION ORDER (LRO). An order by the ICP/IMM to redistribute retail stock identified through an Inter-or Intra-Service retail asset visibility system.

MANAGEMENT CONTROL ACTIVITY. DoD Component/activity designated to initially receive and effect control over Service initiated and contractor initiated requisitions for GFM which would be supplied from the wholesale system.

MATERIEL RELEASE CONFIRMATION. A notification from a storage site advising the originator of an MRO release order of the positive action taken on the order. Will also be used, with appropriate shipment status DI codes, as a reply to a followup initiated by the ICP.

MATERIEL RELEASE DENIAL. A notification from a storage site advising the originator of an MRO of negative (warehouse refusal) action on the order.

MATERIEL RELEASE ORDER. An order issued by an accountable supply system manager (usually an ICP or accountable depot) directing a nonaccountable activity (usually a storage site or materiel drop point) within the same supply distribution complex to release and ship materiel.

MILITARY ASSISTANCE PROGRAM ADDRESS DIRECTORY. DoD 4000.25-8-M (reference (c)) containing addresses of FFs, CRS, and/or customers- within-country required for releasing FMS and MAP Grant Aid shipments and related documentation.

MILITARY ASSISTANCE PROGRAM GRANT AID. Military assistance rendered under the authority of the FAA for which the United States receives no dollar reimbursement.

MILITARY ASSISTANCE SERVICE FUNDED PROGRAM. Programs which, by their nature, are MAP Grant Aid except that the funding source is a DoD appropriation.

NOTICE OF AVAILABILITY. The document by which the U.S. shipping installation will notify the

designated FMS CR/FF that the materiel is ready for shipment and, where appropriate, that the shipment requires an export release under the provisions of AR 55-355 et al., (reference (d)).

PASSING ACTIONS (GENERIC TERM). A general term identifying the transactions associated with materiel demands within the supply distribution system. This term is applicable when forwarding materiel demands from the initial SOS to the ultimate SOS.

PASSING ORDER. An order used to pass an erroneously routed requisition to the appropriate depot or distribution point, and to pass a requisition from one distribution system to another.

QUANTITY RESTRICTION. A restriction in quantity on a single requisition to limit the number of shipment units to 25 each to accommodate structure of MILSTRIP TCNS only. Quantity restriction is applied to requisitions constituting volume shipments of equipment as specified by the Services. For example, wheeled/tracked vehicles and other items of equipment when a unit of issue of one each constitutes a single shipment unit. (Applicable to FMS only.)

REDISTRIBUTION ORDER. An order issued by a responsible IMM to an accountable supply distribution complex directing release of materiel to another supply distribution activity within the same supply complex. For intra-Service use, an RDO may be used to direct release and shipment of materiel from a post, camp, station, or base to another similar activity to satisfy a specific demand.

REFERRAL ORDER. An order used between supply sources and distribution systems for the purpose of passing requisition or continued supply action when the initial activity cannot fill the demand.

REPORTING ACTIVITY. A Service activity which has reported materiel to an ICP/IMM.

REQUIRED AVAILABILITY DATE. A numerical day of the year which specifies when end items and concurrent spare parts are committed to be available for transportation to an FMS Grant Aid recipient.

REQUIRED DELIVERY DATE. A three position numerical day of the year which specifies when materiel is actually required to be delivered to the requisitioner, and is always earlier or later than the computed SDD. An RDD cannot exactly equal a computed SDD.

REQUIRED DELIVERY PERIOD. A period of time which specifies the earliest and last acceptable date materiel can be delivered (applies to conventional ammunition requisitions only).

SHIPPING ACTIVITY. An S/A activity that originates shipments and plans, assembles, consolidates, documents, and arranges for movement of materiel.

STANDARD DELIVERY DATE. The maximum ending calendar date by which normal processing and shipping in the logistics system will permit receipt and recording of the materiel by the consignee.

SUBSISTENCE TYPE OF PACK CODE. Entered only in subsistence requisitions to indicate the required "level of pack" to be applied to shipments of perishable and nonperishable subsistence. (See also appendix B23.)

SUPPLEMENTARY ADDRESS. The activity address of a customer when the recipient of materiel and/or the billing activity is other than the requisitioner address.

SUPPLY SOURCE. The S/A installations or activities in their respective distribution systems

designated to receive and process requisitions and related transactions; for example, the ICP, DSC, IMM, stock point, or depot.

THEATER. The geographical area outside the continental United States for which a commander of a unified or specified command has been assigned military responsibility.

TYPES OF COUNTRY FOREIGN MILITARY (FMS) SALES OFFER/RELEASE OPTIONS.¹

Methods by which countries participating in the FMS program advise supply sources by coded entry on requisitions whether or not prior notice to the CRs or FFs is required before release of materiel shipments. The type of offer/release option will be determined as a result of negotiations between the CR and the Service at the time the case agreement is reached and will prescribe actions required in regard to shipments against the case except when the shipping activity determines a need for added protection and/or controls covered under chapter 6, paragraph O.

1. Type A. Shipments are to be released automatically by the shipping activity without advance notice.

2. Type X. The U.S. Service and the CR have agreed that the:

a. U.S. Service will sponsor the shipment to a country address. Under this agreement Block 34 (FF code) of the DD Form 1513 must contain "X and a country-within-country (CC) (transportation) code must be entered in Block 33 (mark-for code). The MAPAD must contain the CC code and addresses for each type of address required; such as, parcel post, freight, and documentation.

b. Shipments are to be made to an assembly point or staging area as indicated by clear text instructions on exception requisitions. Under this agreement Block 34 of the DD Form 1513 must contain W/." A mark-for code may be entered in Block 33 and the MAPAD must contain the mark-for code if the mark-for address is to be used on the shipment to the assembly point or staging area.

3. Type Y. Advance NOA to the CR/FF is required before release of shipments, but shipment may be released automatically if release instructions are not received by the shipping activity within 15 days subsequent to the date of the NOA.

4. Type Z. Advance NOA to the CR/FF is required before release of shipment and specific release/shipping instructions must be received by the shipping activity before shipment may be made.

UNIFORM MATERIEL MOVEMENT AND ISSUE PRIORITY SYSTEM. A system to ensure that requirements are processed under the mission of the requiring activity and the urgency of need, and to establish maximum uniform requisition processing and materiel movement standards. (The criteria for application of UMMIPS is prescribed in DoD 4140. I-R.) (See also appendix B14.)

¹See DoD 5105.38-M (reference (t)) for additional data concerning the use of these codes and complete instructions for preparing the DoD Offer and Acceptance.
